It shall be the responsibility of the owner or custodian of any animal in the city, whether permanently or temporarily therein, to prevent such animal from committing any act which constitutes a nuisance. It shall be considered a nuisance for any animal, including dogs, cats, ferrets and chickens, to habitually or frequently make animal noises including barking, crying, howling, meowing, whimpering or clucking; to frequent school grounds, parks or other public areas while unrestrained; to chase vehicles; to fight with other animals; to chase and kill birds or other wildlife; to annoy any person if such person is not on the property of the animal owner or custodian of the animal; to molest, defile, destroy any public or private property; or to leave excrement on any property, public or private. 6-2-12: IMPOUNDING:

- (A) Impoundment; Time Of Keeping: Animal control officials, as the council shall designate to enforce this chapter, may take up and impound in the designated city animal pound any animal found in violation of this chapter or that commits any act constituting a nuisance under this chapter.
- (B) Notice Of Impoundment: Immediately upon the impounding of an animal wearing a current license, the animal control official shall make a reasonable effort to notify the owner of such animal of such impoundment and the conditions whereby the owner may regain custody of the animal. Any oral notices shall immediately be confirmed in writing.
- (C) Proof Of License: Any animal owner shall produce for the animal control official's inspection the owner's license or receipt upon request.
- (D) Impoundment Of Inhumanely Treated Animals: All animals seized on behalf of the city under Minnesota statutes section 343.22 or 343.29 for cruel treatment to an animal must be held for redemption by the owner for at least ten (10) days unless a veterinarian authorizes immediate destruction of the animal. In the case of an animal raised for food or fiber products, the animal may not be seized or disposed of without prior examination by a licensed veterinarian pursuant to a warrant issued by a judge.
 - 1. Security: A person claiming an interest in an animal seized under Minnesota statutes section 343.22 or 343.29 may prevent disposition of the animal by posting security in an amount sufficient to provide for the animal's actual costs of care and keeping. The security must be posted within ten (10) days of the seizure inclusive of the date of the seizure.
 - 2. Notice: The city or its designated animal control official must give notice of this subsection by delivering or mailing it to a person claiming an interest in the animal or by posting a copy of it at the place where the animal is taken into custody or by delivering it to a person residing on the property, and telephoning, if possible. The notice must include:
 - a. A description of the animal seized; the authority and purpose for the seizure; the time, place, and circumstances under which the animal was seized; and the location, address, telephone number, and contact person where the animal is kept;
 - b. A statement that a person claiming an interest in the animal may post security to prevent disposition of the animal and may request a hearing concerning the seizure or impoundment and that failure to do so within ten (10) days of the date of the notice will result in disposition of the animal;
 - c. A statement that all actual costs of the care, keeping, and disposal of the animal are the responsibility of the person claiming an interest in the animal, except to the extent that a court or hearing officer finds that the seizure or impoundment was not substantially justified by law; and
 - d. A form that can be used by a person claiming an interest in the animal for requesting a hearing under this subsection.

Upon request of a person claiming an interest in the animal, if made within ten (10) days of the date of seizure, a hearing must be held within five (5) business days of the request, to determine the validity of the seizure and impoundment. In the case of a seizure pursuant to a warrant issued under Minnesota statutes section 343.22, the hearing must be held by the judge who issued the warrant. In the case of a seizure under Minnesota statutes section 343.29, the city may either: 1) authorize a licensed veterinarian with no financial interest in the matter or professional association with either party; or 2) use the services of a hearing officer to conduct the hearing. A person claiming an interest in the animal who is aggrieved by a decision of the hearing officer may seek a court order governing the seizure or impoundment within five (5) days of notice of an order. (Ord. 1153, 3-17-2009)

6-2-13: BITING; IMPOUNDMENT:

- (A) It shall be the duty of every person having knowledge of an animal bite, excluding bites where the victim is a member of the animal owner's immediate family, or a bite by any animal suspected of having rabies which occurred within the city, to report the same to the police or animal control official as soon as practicable after the bite occurs. This report shall include the name and address of the owner of the animal if known, the description of the animal, and the name, address and age if known of any person injured.
- (B) Any animal which may have exposed a person to rabies by bite or other manner may be immediately seized whether on or off the owner's premises and quarantined for a period of at least ten (10) days. Such impounding may be by the owner except as otherwise provided. The owner shall notify the animal control official and shall furnish written certification that the animal is being impounded.
In the case of an animal with no known owner, the animal shall be quarantined in the city pound. Where no current rabies vaccination of the animal can be proven or upon written demand by the bite victim to the city animal control

official or police officer, the animal shall be impounded at the city pound. The owner may, however, provide impoundment at an approved animal kennel or veterinarian, provided that until such provision is made the animal shall be impounded in the city pound. In either case, the owner shall be responsible for the impoundment costs and shall make arrangements in advance for the payment of these costs.

In the case of election to use an approved kennel, the owner shall furnish written proof that such animal is being so impounded. For the purposes of this section, an "approved animal kennel" shall mean a kennel within or outside the city limits that is approved by the city or the animal control official and that has entered into an agreement with the city to keep animals in a manner consistent with this and all other ordinances of the city. The owner shall be responsible for the impoundment costs and shall make arrangements in advance for the payment of these costs including posting a bond or cash escrow of at least four hundred dollars (\$400.00) to assure proper care and maintenance of the animal.

- (C) If the attending physician, health officer, police officer or animal control official deems it necessary, the animal shall be euthanized and examined for rabies to determine if it was diseased.
- (D) The city may have an autopsy performed on any dead animal which had been impounded or on an animal dying while impounded to determine if it was diseased and the cause of death.
- (E) Upon expiration of the required ten (10) days, if the animal does not have rabies, it may be released and the animal control official notified just prior to the release. If the animal is impounded in the city pound, such animal may be reclaimed as hereinafter provided.
- (F) Any animal that has been bitten by a rabid animal or believed to have been exposed to rabies shall be confined and maintained in accordance with the rules and regulations promulgated by the state board of animal health. It shall be the responsibility of the owner of the animal to notify the animal control official of such bites and exposure to rabies. If the owner fails to provide as set forth above for the care and maintenance of the animal, then the city may at its discretion humanely destroy the animal. (Ord. 1153, 3-17-2009)

6-2-14: EXCEPTIONS TO IMPOUNDMENT:

Animals may be immediately destroyed if: a) an animal is diseased, vicious, rabid, or exposed to rabies and cannot be impounded after a reasonable effort or without serious risk to the person attempting to impound or others; or b) upon a proper determination by a licensed doctor of veterinary medicine that the animal is suffering and is beyond cure through reasonable care and treatment. (Ord. 1153, 3-17-2009)

6-2-15: LENGTH OF IMPOUNDMENT:

Except as otherwise provided in this chapter, all animals seized by or on behalf of the city must be held for redemption by the owner for at least five (5) regular business days of the impounding agency. If such animal has bitten a person, or is suspected of being rabid or believed to have been exposed to rabies, it shall be kept as specified in section [6-2-13](#) of this chapter. For the purpose of this chapter, "regular business day" means a day during which the establishment having custody of an animal is open to the public not less than four (4) consecutive hours between the hours of eight o'clock (8:00) A.M. and seven o'clock (7:00) P.M. (Ord. 1153, 3-17-2009)

6-2-16: RECLAIMING OR DISPOSING OF IMPOUNDED ANIMALS:

- (A) Reclaiming Impounded Animals: Before reclaiming a dog, cat, ferret, or other animal, the owner shall pay an impounding fee as determined by council resolution, plus the cost to the city of keeping the animal in the pound. If at the end of the impounding period the animal is not reclaimed by the owner, such animal shall be deemed to have been abandoned and may be sold to any person.
- (B) Unclaimed And Unredeemed Animals: At the end of the five (5) day period, all animals which remain unredeemed must be made available to any licensed institution, as defined in Minnesota statutes section 35.71, subdivision 1, which has requested that number of animals, under the terms provided under Minnesota statutes section 35.71. If such animal is not required by a licensed institution, the animal may be sold to any person. If the purchaser of the animal keeps or harbors the animal in the city, any required license shall be obtained before possession of the animal is given to the purchaser. If any animal is not reclaimed, released to an institution, or sold, then it may be destroyed in a humane manner.
- (C) Reclaimed Or Released Dogs, Cats Or Ferrets: If an impounded dog, cat or ferret requires a city license, such license shall also be obtained and an unlicensed penalty fee, as established by the council annually, shall be paid before the animal is released. No dog, cat or ferret shall be released until sufficient proof of vaccination has been shown. If no proof of vaccination can be shown the dog, cat or ferret may be released, but the animal control official shall issue a notice

requiring the owner to produce proof of vaccination within ten (10) days of release. If proof of vaccination is not produced within ten (10) days, the city may issue a citation.

(D) Treatment: Any animal which is impounded in the city pound shall be kept with kind treatment and sufficient food, water, and shelter for the animal's comfort, in accordance with the laws of the state. (Ord. 1153, 3-17-2009)

6-2-17: DANGEROUS DOGS:

(A) Guard Or Attack Dogs: No owner shall keep or harbor any guard dog unless such person shall first register with the city clerk, on forms provided by the clerk, a description of such dog, giving the address of the premises where the dog will be kept within the city and the names, addresses and telephone numbers of the owner and handler. There shall be posted in a conspicuous place on the premises containing such dog a sign not less than twelve inches by twelve inches (12" x 12") bearing the legend "Beware Dangerous Dog on Premises". Also included on the sign shall be a telephone number indicating where the handler of the dog can be reached.

(B) Potentially Dangerous Dogs:

1. Ownership of potentially dangerous dogs, including guard or attack dogs that meet the definition of "potentially dangerous dogs", within the city, with the exception of ownership by a public law enforcement agency, is subject to the following regulations:
 - a. Leash And Muzzle: No person shall permit a potentially dangerous dog to go outside its kennel or pen unless such dog is securely leashed with a leash no longer than four feet (4') in length, with an adult in physical control of the leash.  - b. Confinement: All potentially dangerous dogs shall be securely confined indoors or in a securely enclosed and locked pen or kennel, except when leashed, or chained and muzzled as above provided. All structures used to confine potentially dangerous dogs must be locked with a key or combination lock when such animals are within the structure. All structures erected to house potentially dangerous dogs must comply with all zoning and building regulations of the city. All such structures must be adequately lighted and ventilated and kept in a clean and sanitary condition.
 - c. Signs: All owners of potentially dangerous dogs within the city shall within thirty (30) days of the effective date of this section display in a prominent place on their premises a sign easily readable by the public using the words "Beware of Potentially Dangerous Dog", including a warning symbol to inform children. In addition, a similar sign is required to be posted on the kennel or pen of such animal.
2. It shall be unlawful for the owner of a potentially dangerous dog to fail to comply with the requirements and conditions set forth in this section. Any dog found to be the subject of a violation of this section shall be subject to immediate seizure and impoundment in accordance with sections [6-2-15](#) and [6-2-16](#) of this chapter. In addition, failure to comply will result in the revocation of the license of such animal requiring immediate removal of the animal from the city.

(C) Dangerous Dogs:

1. Exemptions:

- a. A dog shall not be declared a "dangerous dog" if the threat, injury, or damage was sustained by a person: 1) who was committing, at the time, a willful trespass or other tort upon the premises occupied by the owner of the dog; 2) who was provoking, tormenting, abusing, or assaulting the dog or who can be shown to have repeatedly, in the past, provoked, tormented, abused, or assaulted the dog; or 3) who was committing or attempting to commit a crime.
- b. This subsection (C) shall not apply to dangerous dogs used by law enforcement officials for police work.

2. Registration:

- a. All dangerous dogs must be registered with the city. The city shall issue a certificate of registration to the owner of a dangerous dog if the owner presents sufficient evidence that:
 - (1) A proper enclosure exists for the dangerous dog as required under this section and a posting on the premises with a clearly visible warning sign as required under this section, including a warning symbol to inform children, that there is a dangerous dog on the property; and

- (2) A surety bond issued by a surety company authorized to conduct business in this state in a form acceptable to the county in the sum of at least fifty thousand dollars (\$50,000.00), payable to any person injured by the dangerous dog, or a policy of liability insurance issued by an insurance company authorized to conduct business in this state in the amount of at least fifty thousand dollars (\$50,000.00), insuring the owner for any personal injuries inflicted by the dangerous dog. Such insurance policy shall provide that no cancellation of the policy will be made unless ten (10) days' written notice is first given to the city clerk.
 - b. At the time of registration, the city shall provide to the owner of the dangerous dog for posting on the owner's property a copy of a warning symbol to inform children that there is a dangerous dog on the property.
3. Fees:
- a. Registration: The city shall charge an annual registration fee, in addition to any regular dog licensing fees, which amount shall be set by resolution of the city council from time to time.
 - b. Warning Symbols: The city shall charge a fee for warning symbols provided to owners of dangerous dogs for posting on their property, which amount shall be set by resolution of the city council from time to time.
4. Requirements: Owners of dangerous dogs within the city shall comply with the following:
- a. Tag: A dangerous dog must have a standardized, easily identifiable tag identifying the dog as dangerous and containing the uniform dangerous dog symbol required by the city affixed to the dog's collar at all times.
 - b. Confinement; Leash And Muzzle: All dangerous dogs shall be securely confined indoors or in a securely enclosed and locked pen or kennel, or confined by leash and muzzle in accordance with the provisions of subsection (B)1 of this section.
5. Confiscation:
- a. Seizure: The city shall immediately seize any dangerous dog if:
 - (1) After fourteen (14) days after the owner has notice that the dog is dangerous, the dog is not validly registered under this section;
 - (2) After fourteen (14) days after the owner has notice that the dog is dangerous, the owner does not secure the proper liability insurance or surety coverage as required under this section;
 - (3) The dog is not maintained in the proper enclosure; or
 - (4) The dog is outside the proper enclosure and not under physical restraint of a responsible person as required under this section.
 - b. Reclaimed: An owner may reclaim a dangerous dog seized under this section, by paying impounding and boarding fees and presenting proof to the city that the requirements of this section have been met. The city may dispose of a dog that is not reclaimed within seven (7) days and the owner is liable to the city for costs incurred in confining and disposing of the dog.
 - c. Subsequent Offenses: The city shall seize any dog where a person has been convicted of a misdemeanor for violating Minnesota statutes section 347.51 or 347.52, and the person is charged with a subsequent violation relating to the same dog. If the person is convicted of the crime for which the dog was seized, the city will destroy the dog in accordance with the order of the court and the owner shall pay the cost of confining and destroying the animal. If the person is not convicted of the crime for which the dog was seized, the dog may be reclaimed pursuant to subsection (C)5b of this section or disposed of within seven (7) days if unclaimed. (Ord. 1153, 3-17-2009)

6-2-18: KENNEL LICENSES:

- (A) Requirements: No person shall operate a commercial or residential hobby kennel without a license to do so from the police department or animal control official. The license application shall state the name and address of the kennel owner, the type of kennel, the location of the kennel, and the number of animals proposed to be kept. The license to operate a commercial kennel shall be for one year and shall expire on December 31 of each year. The license to operate a residential kennel shall be for two (2) years to run concurrent with tag licensing. Each application for a license shall include payment of a fee as established by the city council from time to time.
 In addition to the license required herein, the applicant for a commercial kennel license must also secure a conditional use permit when locating in a B-3, I-1, I-2, or GIH district. Commercial kennels are a permitted use in the B-4 district. Each kennel license shall be posted conspicuously on the premises where said kennel is located.

Every kennel shall be kept at all times in a clean and sanitary condition and the animals shall be reasonably restrained from annoying the neighborhood or the general public.

- (C) Standards: Commercial kennels are subject to the following standards:
 1. Related ancillary services including training, grooming and food and accessory sales may be conducted or provided at the facility. When located in an industrial district, these services are subject to section [10-23-2](#) of this code.
 2. An enclosed exercise area shall be provided to accommodate the periodic exercising of animals boarded at the facility. Any outdoor exercise area must be fenced to a minimum height of four feet (4'), must have a three foot (3') vegetative buffer, must be cleaned regularly, and animal waste shall not be allowed to enter a stormwater pond or storm sewer.
 3. In a multi-tenant building, the kennel facility must have a ventilation system that prohibits the transmission of odors or organisms between tenant bays. Facility air temperature must be maintained between sixty degrees (60°) and eighty degrees Fahrenheit (80°F).
 4. A sufficiently sized room/cage separate from the facility areas shall be provided to adequately separate sick or injured animals from healthy animals.
 5. Wall finish materials below forty eight inches (48") in height shall be impervious, washable materials such as sealed masonry, ceramic tile, glass board, or marlite. Floor finish shall be sealed concrete or other approved impervious surface.
