Notify Us

Visit burnsvillemn.gov/roadwork and click the “notify us” button to let us know about:

- Irrigation or invisible fence you have within 5' of the street
- Landscaping you have within 5' of the street
- Questions you have about trees in the boulevard
- Special events you have planned for the summer. The City and contractor will work to accommodate these
- Disabilities or medical needs. The City and contractor will work to accommodate these

Notify Us

Construction Safety

- Stay away from equipment, materials, and trenches whenever possible
- Access to your property will be maintained to the extent feasible during construction
- Preserve survey stakes and utility flags during construction
- Observe posted warning and no parking signs

Road Surface and Dust

- Streets will be rough when pavement is removed or milled
- Where pavement is removed, the contractor will water the surface to minimize dust. Drive slow to minimize dust
- The contractor will sweep adjacent roads periodically to minimize mud tracking

Disturbed Boulevards

- Boulevards will be disturbed adjacent to the street
- Disturbance is typically 3'-5' adjacent to the street
- Disturbed turf areas will be restored with topsoil and seed
- The contractor is responsible for maintaining seed for 45 days until it becomes established after which the adjacent property owner is responsible for maintenance
- New seed requires frequent watering
- Do not mow seeded areas until the grass is nearly tall enough to fall over and when mowing use the highest setting till next season

Driveways and Curb

- Asphalt driveways will be milled and paved within 5'-10' of the edge of the street
- Concrete driveways will be replaced within 5'-10' of the edge of the street
- Driveway sections will be restored with the same material as existing
- Concrete driveways take 5-7 days to cure. Please refrain from driving on them during that time

Primary Inspector

Tom Vidmar
Bolton and Menk
612-578-2291
